

Date : August 5, 2009

**Feature:**

- Universal input 85~264VAC or 120~375VDC
- PFC function available for SPS-060P-Qx
- Over voltage, over load protection
- Short circuit shutdown and auto recovery
- 100% full load burn-in test
- -20°C to 70°C operation temperature
- UL, cUL, TUV, CB, CE certified
- 3 years warranty
- Dimension : 159 x 95 x 38 mm

**NEW** designing 60W Quad output

**Electronic function:**

- \*\* New PWM IC design
- \*\* Built-in PFC choke to lower 25% THD ( total Harmonic performance)
- \*\* Wide operating temperature from -20deg.C to 70deg.C.(please refer to the detail spec)
- \*\* 90deg. terminal available with MOQ

**Safety:**

Complied to EN61000-3-2 Class A standard.

**UL, cUL, TUV EN60950-1:2001 and CB approval.**

New CE directive conformity (**LVD 2006/95/EC and EMS 2004/108/EC**) is available.

**Application:**

**Programmable logic controller,  
Automatic control  
Industrial control  
Test equipment  
POS system**
