

Date : June 22, 2009

**Feature:**

- Universal input 88~264VAC or 125~375VDC
- PFC function available for SPS-100P-ITx
- All output are isolated, V2 & V3 polarity optional (+ or -)
- Over voltage, over load protection
- Short circuit shutdown and auto recovery
- -20°C to 70°C operation temperature
- UL, cUL, TUV, CB, CE certified
- 3 years warranty
- Dimension : 198 x 95 x 38 mm

**NEW** designing 100W Tripe output unit for your reference

**Electronic function:**

- \*\* Built-in PFC choke to lower 25% THD ( total Harmonic performance)
- \*\* Wide operating temperature from -20deg.C to 70deg.C.(please refer to the detail spec)
- \*\* All outputs are isolated, V2 and V3 polarity optional (+ or -)
- \*\* 90deg. terminal available with MOQ

**Safety:**

Complied to EN61000-3-2 Class A standard.

**TUV EN60950-1:2006 and CB approval. UL NoA is attached for reference.**

New CE directive conformity (LVD 2006/95/EC and EMS 2004/108/EC) is available.

**Application:**

- Programmable logic controller
- Automatic control
- Industrial control
- Test equipment
